Cost Action EU-MACE

Building a new form of systemic research ecosystem around autonomous Materials Acceleration Platforms (MAPs) for advanced functional materials for sustainable energy technologies.

Build your network :

- MAP to MAP
- Materials Science Researchers (Discover MAPs)
- Industries, SSDB experts, Device integration experts (MAP+ initiative)
- Incubation of new MAPs
- EU and International projects and platforms on advanced materials

Lab images: NOMATEN Centre of Excellence in Multifunctional Materials for Industrial and Medical Applications *https://nomaten.ncbj.gov.pl/*

EU-MACE network offers:

- ITC* conference grants for young researchers
- Dissemination conference grants
- Short Term Scientific Mission grants
- Training schools & Incubation of future ERASMUS+ programme
- Workshops/conference
- Searchable database on MAPs and Experts**
